20 Years of Promoting Engine in Society

20 Years of Leadership, Innovation and Concern for the Environment

The European Association of Internal Combustion Engine Manufacturers – EUROMOT – celebrates 20 years of successful presence on the European political scene. Founded in 1991, the Association was officially launched on 21st January in London. The 20th Anniversary Celebration will be organised in Brussels later this year.

EUROMOT represents the leading manufacturers of internal combustion engines in Europe, USA and Japan. Their products are used in a broad range of nonroad and marine applications: construction, mining and material handling equipment, trucks and buses, agricultural and forestry equipment, commercial marine and seagoing vessels, workboats and pleasure boats, rail traction, lawn/garden and recreational equipment, power generation. IC engines are at the heart of modern societies.

Our members employ all over the world about 200,000 thoroughly skilled and highly motivated men and women. The European market turnover for the business represented exceeds 25 bn euros.

EUROMOT has been working for many years with regional and international regulatory bodies, eg the European Commission, the US Environment Protection Agency (EPA), the United Nations' Economic Commission for Europe (UNECE) and International Maritime Organization (IMO), and with national governments to provide reliable know-how on advanced internal combustion engine technologies in general and, in particular, on the feasibility of environmental as well as cost-effective product regulations.

THE EUROMOT MEMBER COMPANIES

Status 2011-01

AGCO SISU POWER	MAN GROUP
BRIGGS & STRATTON	MHI EQUIPMENT EUROPE
CASE NEW HOLLAND	MTU GROUP (TOGNUM)
CATERPILLAR POWER SYSTEMS GROUP	MWM
CUMMINS ENGINES	ROBIN EUROPE
DAIMLER	ROLLS-ROYCE
DEUTZ	SAME DEUTZ-FAHR
DOLMAR	SCANIA
DRESSER WAUKESHA ENGINES	SOLO
EMAK	STEYR MOTORS
FIAT POWERTRAIN TECHNOLOGIES	STIHL
GE JENBACHER	TORO EUROPE
GLOBAL GARDEN PRODUCTS	VOLKSWAGEN INDUSTRIAL ENGINES
HATZ	VOLVO CONSTRUCTION EQUIPMENT
HONDA EUROPE	VOLVO PENTA
HUSQVARNA GROUP	WACKER NEUSON
JCB POWER SYSTEMS	WÄRTSILÄ
JOHN DEERE	YAMABIKO GROUP
KAWASAKI EUROPE	YANMAR GROUP
KOMATSU ENGINES	
LIEBHERR	
LOMBARDINI – KOHLER GROUP
